

World-Wide

PROSYS Service world-wide!

PROSYS is an international company with highly qualified staff.

As a supplier of automation systems we co-operate with local engineering companies in various countries. They are situated in the vicinity of our customers.

New and important market developments are our sites in co-operation with Aguas Latinas in Mexico and Peru, providing services in Central and South America.

In the past we worked on major projects in Germany, Russia, Slovakia, South Africa, Mexico, Argentina and Switzerland.

The international co-operation with universities, technical colleges and institutes is of great significance to us.

We present our company at international trade fairs and forums.
