

Our company

The company was founded in 1990 and is located in Weida, a small town in the centre of Germany. The town of Weida is not only known for its famous Osterburg from the 12th century, but also for its long tradition in the leather and textile industry. PROSYS combines this tradition at this site with progress, technology and highly qualified personnel. *for the benefit of our customers.*

Our philosophy

We regard automation as the culmination of scientific, technical progress and continuous research and development. Our close cooperation with universities and institutes provides the theoretical basis for our work, its wide application in the industry and its practicality. *for the benefit of our customers.*

20 years of industry experience

What PROSYS is famous for is practical solutions, reliability and flexibility in our cooperation with our customers. Qualified engineering means that we can provide maximum benefit for any investment. What our engineers prepare, our production staff make reality. *for the benefit of our customers.*
